TRANSFER OF COPYRIGHT TO

The International Association for Automation and Robotics in Construction (IAARC)
and/or
The International Symposium on Automation and Robotics in Construction (ISARC)

Terms and Licensing Policy

When submitting the paper(s) to ISARC, the author(s) accepts the terms of the ISARC Copyright Transfer Terms and Licensing Policy as follows:

1. The author(s) affirm that the paper has not been published elsewhere and will not be published elsewhere prior to ISARC.
2. The author(s) will grant to ISARC a nonexclusive, royalty-free, perpetual, worldwide, irrevocable, sub-licensable, and transferable license to publish the paper (in unmodified form) and its online presentation (such as video recordings) in any fashion (including but not limited to inclusion in the ISARC printed and electronic proceedings, via electronic means such as the world wide web, and inclusion in future compilations of papers). This "nonexclusive" license means that the author(s) are not restricted to future use of the material except that exclusive rights cannot be granted to another.
3. The author(s) affirm that they have the right to grant the license specified in (2), that is, publication by ISARC or its licensees will not be in conflict with copyright or other restrictions.
4. The author(s) acknowledge that acceptance of the paper does not imply ISARC's endorsement of or agreement with the ideas presented. Under no circumstances shall ISARC be liable for any damages resulting from the use of the information included in the paper.
5. The author(s) acknowledge that conditions for eventual publication of the paper in the ISARC conference proceedings are predicated upon registration and presentation of the paper at the ISARC event by at least one of the above authors.
6. The authors retain the right to self-archive IAARC's final/published version of their paper(s) in their institutional repositories and to reuse content from their paper (including figures, tables, and text) in future works/publications (including the authors' theses and dissertations), provided that the original ISARC publication is properly cited. This includes referencing the ISARC proceedings in accordance with the new venue referencing style and including a note in the Acknowledgment section such as: "This paper (or figure/data) was originally presented at ISARC [Year] and published in the Proceedings of the [Number] ISARC, [Year], [City], [Country]." The corresponding DOI reference should also be included. For any questions regarding the use of ISARC publications, authors may contact publications@iaarc.org.
7. If at least one of the authors of a paper is a Crown Government or U.S. Government employee acting in their official capacities, copyright need not be transferred to IAARC. However, IAARC will receive nonexclusive rights to use, print, publish, and authorize others to publish the work while clearly identifying the author and the Crown or U.S. Government affiliation. Please contact the Conference Technical Committee for further assistant.

By rejecting the terms and licensing policy above, the submitted work will not be processed for publication.
